

U.S. Rock Climbing Areas With > 40 routes

PART 1: ALABAMA - CALIFORNIA

<https://www.commonclimber.com/checklist-1>

Notes on assembling this list:

- This list was compiled by hand using Mountain Project as the primary resource. There are likely more areas and routes than shown.
- In most cases Toprope climbs are also listed as Trad, so TR is combined with trad.
- I did not double check the addition – some routes with more than one designation are double counted in MP.
- Areas are listed alphabetically and are not separated by region (e.g. northern AZ)
- “The” is not included in the name
- Some areas with more than 40 climbs were left off if there appeared to be a significant access issue.
- The primary form of climbing is highlighted in the darkest green.
