

U.S. Rock Climbing Areas with >40 Routes
 Part 3: Minnesota to New Mexico
<https://www.commonclimber.com/checklist-3>

Notes on assembling this list:

- This list was compiled by hand using Mountain Project as the primary resource. There are likely more areas and routes than shown.
- In most cases Toprope climbs are also listed as Trad. In those cases TR is combined with trad. If TR is alone I make a notation.
- I did not double check the addition – some routes with more than one designation are double counted in MP.
- Areas are listed alphabetically and are not separated by region (e.g. northern AZ)
- “The” is not included in the name
- Some areas with more than 40 climbs were left off if there appeared to be a significant access issue.
- The primary form of climbing is highlighted in the darkest green.
- If a large area is a conglomeration of multiple smaller, distinct areas spread out, then I broke it up.
